

Minter Global OÜ BIP Offering

Minter Global OÜ is a licensed seller of BIP tokens. We offer you to purchase large amounts of BIP tokens (1 to 30 million BIP tokens) with a discount for deferred delivery.

What is BIP?

BIP is a native token of the Minter network. It is used to create custom coins, to pay network fees and is necessary for the functioning of custom sidechains.

What is Minter?

Minter is a decentralised solution which lets any brand, blogger or community create their own coin and implement it in reward and loyalty systems. Coins can be transferred between users, exchanged for one another or spent on goods and services.
